SECUREWARE

# Paperless Security Management System

**EU**  
EUROPEWARE

Security operations are the major artery for organizing, recording, filing, monitoring, controlling all what enters and leaves or happened within your property.

On the other hand, performing security and loss prevention operations costs organizations' money, it takes time, effort and space.

## **BUT NOT ANYMORE**

SECUREWARE is a revolutionary software that will change the terms regarding security operations on the field totally and for good.

## **What does SECUREWARE do?**

Imagine a tool that can manage, store, organize, approve all your security matters, under one data base. On your hand, online from anywhere and anytime, by only one click you get access to your Security and loss Prevention operations 24/7 with the archive of 36 months covering:

- 1- Access control
- 2- Work Permits
- 3- Patrolling reports
- 4- Lost & founds
- 5- Outgoing authorizations
- 5- Key managements and .... more.

# ACCESS CONTROL

SECUREWARE is an efficient way in controlling the access of everything including: Individuals - (visitors, casual staff, contractors and suppliers...), Items - (materials, supplies, goods, tools and properties in general...), Information - (data, reports, statistics, and users that have the access to information...).

- Easy to fill out digital form with scanned ID/Supporting Documents and Digital Signature
- Less risk of lost, damaged data or misplaced documents
- Paperless recording of all forms and documents
- Gives the convenience of tracking and connecting work permits with contractors
- Digital time stamp of incoming and outgoing – individuals and items.

# WORK PERMITS

How will SECUREWARE help my organization to save money and improve productivity ??

Cloud transfer and storage of data collected in the field that SECUREWARE program provide:

- Makes it easier for all users to collaborate and share data.
- Get quick electronic work permits approvals from contractor & management.
- Improved employees' productivity.
- Strengthen communication channel between management and ground operations.
- Locating the approval IP Address and GPS of the computer where was it done from for record purposes.

For employees, operating with SECUREWARE, means no paper to "work" with- -no files to juggle and no containers to secure. Their office can fit into a pocket.

Without SECUREWARE	With SECUREWARE
<ul style="list-style-type: none"> <li>Expensive operating costs</li> <li>Slow communication</li> <li>Waste time and money</li> <li>Storage space needed</li> <li>Hard access to data</li> <li>Slow approval process</li> <li>Fire hazard which might arise from paper storage</li> </ul>	<ul style="list-style-type: none"> <li>Boost productivity</li> <li>Reduce costs</li> <li>Improve employee productivity</li> <li>Decrease paper storage space into 0%</li> <li>No fire hazard</li> <li>Easier to find and share documents</li> <li>Remote approvals from all over the world</li> </ul>
